

HOW TO COLLECT *a urine sample at home*

Container

- Any container (Tupperware any old food container)
- Wash your container well with soap or run through the dishwasher.

Amount

- ¼ cup if possible

Delivery

- The fresher the better!
- Samples should be less than 6 hours old.
- Please refrigerate the sample if you cannot bring it in right away.

Tips For Your Pup

- First morning sample is best!
- Keep your pup on a leash so you can stay close.
- Try using a ladle for easy catching, then transfer to a clean container.

Tips For Your Cat

- If there is more than one cat in the household, make sure to separate from others.
- Empty litter box and use plastic litter (available here at Pet Health Center).

Need Help?

- Please do not hesitate to call or text us with any questions. 636.447.4555
- If you cannot get a sample, let us know and we can try and obtain one during your scheduled appointment.
